A ALCHEMICAL FIRE

Range 18"	One Turn

The target gains Flammable (against Melee Attacks).

By some means of secret and mystic arts, they summoned clouds of the sparkling white powder which clung uncannily to skin, cloth, leather, and metal alike, the flames seeming to seek it out.

The greatest skill of the highborn mages is that their spells can render the very protections we craft into our own undoing.

The target gains +1 Armour Penetration, Flaming Attacks, and Magical Attacks.

Pride of place amongst all metals is held by gold, whose power and majesty can be felt even by those unskilled in magic. ALCHEMY

5 CORRUPTION OF TIN

8+	Range 36"	Permanent

The target suffers -1 Armour.

Armour holds no sway over the Magus' art, we render even the strongest breastplate and the best wrought mail fallible, yielding even to the attacks of our slaves.

All Cosmology spells are divided into two versions, representing opposing aspects; Cosmos ☉ and Chaos ∞. When casting Cosmology spells, always declare which version of the spell you are using.

Whenever the Caster successfully casts a non-Bound Cosmology spell, the next Cosmology spell it attempts to cast has its Casting Value reduced by 1, provided this spell is a Cosmology spell of the opposing aspect.

OCCULTISM

THE SACRIFICE

When casting a non-Bound Spell from this Path, immediately after the casting roll, but before any Dispelling Attempt, the Active Player may choose a friendly unengaged unit within 24" or the Caster's unit. A unit may only be chosen once per phase. The chosen unit suffers X hits that wound automatically with Magical Attacks and with no saves of any kind allowed, where X is determined by the Discipline value of the largest fraction of models in the unit, ignoring all Discipline modifiers. In case of a tie, use the lower value:

- 0 to 4: 3 hits
- 5 to 7: 2 hits
- 8 to 10: 1 hits

Any Health Point loss from The Sacrifice that would remove the last model of the chosen unit as a casualty is discarded.

These Health Point losses never cause Panic Tests.

If at least one Health Point loss was caused, the spell is cast with **the amplified version**. In that case, use any text marked as **amplified**.

You gain one Veil Token that is not removed when the spell ends.

When a friendly unit within 18" of the Caster suffers a wound before Special Saves, you may discard a Veil Token from your Veil Token pool and apply the following rules instead:

- No Special Save can be taken.
- If the attack causing the wound has Multiple Wounds, it inflicts one wound less than usual. Otherwise, the wound is ignored. For Standard Infantry, up to 2 wounds are ignored per token provided they are suffered simultaneously. A maximum of two Veil Tokens may be discarded each phase for this purpose. Characters and models with Towering Presence can only ignore a single wound this way per phase.

As the swirl of melee unfolds, the control that the Highborn Elf masters of spell craft exert on the battlefield leaves many an enemy dumbfounded, seemingly distorting and warping the reality itself. An elf they clearly saw impaled on their spear now sidesteps it, delivering a death blow he himself evaded. Sigils prepared in advance make a powerful tool in the hands of a wizard skilled in their usage, and there are none more adept at the fine art of sigilry than the Highborn masters of magical art.
