

What is The 9th Age?

The 9th Age (T9A) is a non-profit project founded in 2015, by hobbyists for hobbyists. We have a multi-national staff of over hundred volunteers, with the goal of making the most balanced and appealing sets of rules for fantasy wargaming, easily accessible, **for free**.

Our systems are miniature-agnostic. You can **use whatever fantasy miniatures you want**, even 3D-printing your own!

Our flagship product is *The 9th Age: Fantasy Battles*, a mass rank & file wargame played by thousands around the world. Currently, we have more than 18,000 registered users on our online community.

The 9th Age, literally, is a living world, where everyone can participate actively to allow the project and its community to grow: it's something unique in today's global wargaming market.

To maintain the calibre of our products, we're constantly developing our team, our internal processes, our quality and—last but not least—our ability to answer the community's desires.

Collect!

For many, collecting miniatures is the first step of the 9th Age hobby. Choose one of our factions and explore the wild world of fantasy miniatures—the T9A Miniatures Libraries provide dozens of suggestions you can use for every unit in the game, all in the intended 25–32mm scale. There's no limit to your possibilities, we're neutral when it comes to models: whatever miniature producer or material you want to use, you can, from plastic kits to old school metal, and of course you can produce and 3D print your miniatures too!

The next step is of course painting your models. In our Gallery you can find plenty of examples of every unit painted by members of our community, not to mention what you can find on T9A social media.

Join our community to share your talents, or ask veteran painters for advice!
